# Fifth Asia Pacific Linguistics Olympiad 

## 9 - 23 April 2023

Problems

- Listen carefully to the invigilators and follow their instructions.
- The contest lasts five hours. The problem set consists of seven pages and contains five problems. You may solve the problems in any order.
- You are not allowed to use any electronic devices, written or printed material, or other external sources of information during the contest.
- If you have a question about any of the problems, put up your hand and ask an invigilator. The invigilator will consult with the jury before answering.
- Rules for writing out solutions:
- Do not copy the statements of the problems.
- Write down your solution to each problem on a separate sheet or sheets.
- Use only the front side of the answer sheet.
- On each sheet, write your name, the number of the problem, and the page sequence of that sheet within the problem, e.g.:

| Name | $\ldots$ |
| :---: | :---: |
| Problem \# | 5 |
| Page \# | $1 / 3$ |

| Name | $\ldots$ |
| :---: | :---: |
| Problem \# | 5 |
| Page \# | $2 / 3$ |

| Name | $\ldots$ |
| :---: | :---: |
| Problem \# | 5 |
| Page \# | $3 / 3$ |

meaning first, second, and third sheet out of three for the fifth problem. Otherwise, your work may be mislaid or misattributed.

- Unless stated differently, you should describe any patterns or rules you identified in the data. Otherwise, your solution will not be awarded full marks.

The contest problems must be kept confidential until they are published on the official APLO website https://aplo.asia. Do not disclose nor discuss the problems online until that date.

Problem 1 (20 points). Here are some verb forms in Yimas and their English translations:

1. impakulat They two have walked.
2. kapwapaykiat You two have slept.
3. nayat He has come.
4. kapayat We two have come.
5. antpukularm They two have almost walked.
6. taykulkrarum They all haven't cut you two.
7. nakratut He has killed us all.
8. taŋkrapaykiarm We two haven't slept.
9. ipwawat You all have gone.
10. antkaypaykiarum We all have almost slept.
11. antykrankularm You two have almost walked.
12. antnantut You all have almost killed him.
13. takulwaykrm They two haven't bought you all.
14. tanankularum You all haven't walked.
15. naŋkrakrat He has cut us two.
16. antkaykrarm

We all have almost cut them two.
17. nananwaykt

You all have bought him.
(a) One of the verb forms above can actually be translated into English in two ways. Indicate which one it is and provide the alternative translation.
(b) Translate into English:
18. ipapaykiat
19. antykrankrarm
20. tapuyat
(c) Translate into Yimas:
21. He has almost gone.
22. We two haven't killed him.
23. They all haven't bought us two.
24. You two have almost killed them all.
25. They two have cut you all.
. Yimas belongs to the Lower Sepik language family. It is spoken by approx. 300 people in the Yimas village of Papua New Guinea.
$\mathbf{y}=n g$ in king, $\mathbf{w}=w$ in week, $\mathbf{y}=y$ in yet.

Problem 2 (20 points). Here are some words and phrases in Ktunaxa and their English translations in random order:

1. $\mathbf{~} \mathbf{a} \cdot \mathbf{k} \ddagger \mathbf{u} \quad$ a. young white-tailed deer
2. $\mathbf{~ a} \cdot \mathbf{k} \neq \mathbf{a n ́ n}$ nam
b. bone
3. $\mathbf{~ a} \mathbf{a} \cdot \mathbf{k i} \neq \mathbf{m i y i t}$
c. bad weather
4. $\mathbf{~ a} \cdot \mathbf{k i} \neq \mathbf{w i} \cdot \mathbf{n a m}$
d. snow
5. $\mathbf{~} \mathbf{a} \cdot \mathbf{k n u q} \neq \mathbf{u} \ddagger \mathbf{a n}$
e. it is angry again
6. $\mathbf{~ a} \cdot \mathbf{k w u m}$
f. Little Strong Belly
7. $\mathbf{~} \mathbf{a} \cdot \mathbf{q} \neq \mathbf{a}$
g. someone's heart
8. $\mathbf{~ 1 a} \cdot \mathbf{q}$ atnananam
h. stomach
9. cmaḱwumnana
i. inside (noun)
10. $\ddagger \mathbf{a}$ suki $\ddagger$ miyitni
j. it is blind
11. $\ddagger$ a sani $\ddagger$ wi $\cdot \mathbf{n i}$
k. Piegans
12. $\ddagger \mathbf{i t} \ddagger \mathbf{i} \neq \mathbf{n i}$
13. American eagle
14. kamnuq $\ddagger$ uqatnana
m. someone's short tail
15. mak
n. it is sunny again
16. maḱnana
o. someone's head
17. $\boldsymbol{\operatorname { s a n }} \neq \mathbf{a}$
p. token (for a game)
18. sani $\ddagger$ miyit
q. $s k y$

You may ignore the prefix $\mathbf{~} \mathbf{a} \cdot \mathbf{k}$ and its variants $\mathbf{~} \mathbf{a} \cdot$ and $\mathbf{~} \mathbf{a} \cdot \mathbf{q}$ in this problem. Its exact function is not yet understood, but it is known that it does not contribute to the word meaning. You will not be graded on whether you include or omit the $\mathbf{~} \mathbf{a} \cdot$, $\mathbf{T a} \cdot \mathbf{k}$, or $\mathbf{~} \mathbf{a} \cdot \mathbf{q}$ prefix.
(!) No additional explanation besides the answers is required, nor will be marked.
(a) Determine the correct correspondences, given that $\ddagger \mathbf{i t c m a k q a} \mathbf{a} \mathbf{n i}$ means it is weak.
(b) What are the two meanings of $\ddagger \mathbf{a}$ ?
(c) Translate literally into English:
18. $\mathbf{~} \mathbf{a} \cdot \mathbf{q a t w u m} \ddagger \mathbf{a} \quad$ dress (noun)
19. $\ddagger \mathbf{a} \ddagger \mathbf{i} \mathbf{t} \ddagger \mathbf{u}$ spring season
(d) Translate into English:
20. $\ddagger$ itqatni

## 21. $\mathbf{~ T a} \cdot \mathbf{k i} \ddagger \mathbf{w i} \cdot \mathbf{n a n a}$

(e) Translate into Ktunaxa:
22. someone's good stomach 23 . eye
. Ktunaxa is a Native American language isolate spoken by fewer than 100 people in Idaho and Montana, USA, and British Columbia, Canada.
$\mathbf{T}, \ddagger, \mathbf{c}, \mathbf{k}$ and $\mathbf{m}$ are consonants. The mark $\cdot$ prolongs the preceding vowel.
The American eagle is a large native bird of prey with white feathers on its head and brown feathers on its body. Little Strong Belly is a person's name. The Piegans are an enemy tribe that obtained its first horses from the Ktunaxa before relations soured. Tokens are playing pieces made out of bone, wood, or stone, used in various (board) games. - Jerome Jochems

Problem 3 (20 points). Here are some numerals in Kobon and their values. Some of the numbers can be expressed in Kobon in two different ways, only one of which is given:

```
    wañig nibö
    yigwo milö
    mudun
11 agip
17 mudun böy day
1 8 \text { kagoł böy day}
21 yigwo ay nibö böy day
22 ñinjuöl ado gi da yigwo
25 ñinjuöl ado gi da mamid
4 6 ~ n ̃ i n j u o ̈ l ~ m i h o ̈ p ~ a d o ~ g i ~ d a ~ k a g o ł
6 0 ~ n ̃ i n j u o ̈ l ~ m i h o ̈ p ~ a d o ~ g i ~ d a ~ y i g w o ~ m i l o ̈ ~ b o ̈ y ~ d a y ~
```

(a) Write the following equality in digits:
yigwo $\times$ ñinjuöl ado gi da kagoł böy day $=$ ñinjuöl mihau nigay ado gi da raleb böy day
(b) Write in Kobon in all possible ways: $8,19,23,53,61,66$.
4. Kobon belongs to the Madang branch of the Trans-New Guinea family. It is spoken by approx. 10,000 people in Papua New Guinea.

- Vlad A. Neacṣu, Michat Boroń

Problem 4 (20 points). Here are some sentences in Inanwatan and their English translations:

1. Idabe meqebi. The hawk speaks.
2. Murowo nasabi. He will cry in the river.
3. Qotoqoware nesabi. His son will sleep.
4. Buquro obosabe. She will hit the taro.
5. Bidora meraqaqabi. He bites me for the sow.
6. Maroqo moootebe. His sister becomes ill.
7. Ato ewai buqaritawodawo. This mouse belongs to the writer (F).
8. Qibiro aga qido meriqaqabe. The tortoise's mother bites us.
9. Qeqake osoi buquro meqaqabi. That cockatoo bites the taro.
10. Ewaidaga medo aga qide meseebi. This snake's father cuts him.
11. Uto aga qidera naqaqasabi. He will bite me for the fish's father.
12. Peraqote aga maroqo merabe. The devil's sister cries.
13. Naqido aga medo noosabe.

My mother's snake will fall.
14. Idabe esai buqaritawo aga qotoqowaredaso. This hawk belongs to the writer (F)'s son.
15. Qido naqotoqoware aga meqarowo obosabe. His mother will hit him in my son's house.
16. Qeqake aga qotoqoware qido aga medora meriobobi. The cockatoo's son hits us for his mother's snake.
17. Taragaro ewai owoidaga mesidao aga bide aga qidodawo.

This lake belongs to that woman's boar's mother.
(a) Translate into English:
18. Meqaro ewai naqidedawo.
19. Ato ewaidaga utora qesabe.
20. Niqido aga bide moobobi.
21. Idabe osoidaga peraqote aga meqarowo meroobi.

One of the sentences has two possible translations. Provide them both.
(b) Translate into Inanwatan:
22. The sow sleeps.
23. That devil will hit us for our daughter.
24. That taro belongs to his brother.
25. This man's father hits him in that river.
26. The writer (м)'s tortoise cuts me in the lake.
$\triangle$ Inanwatan belongs to the South Bird's Head group of the Trans-New Guinea family. It is spoken by approx. 800 people in the Southwest Papua province, Indonesia.

The subscripts (M) and (F) refer to masculine and feminine gender, respectively.
A boar and a sow represent a male and a female pig, respectively. A cockatoo is a kind of bird. A taro is a plant.

- Kazune Sato

Problem 5 (20 points). Here are some sentences in Kombai and their English translations. For most sentences, an example is provided between square brackets to clarify the context in which the sentence could be used:

1. Khuro khemomofa na babamano.

His uncle's friends are usually in the jungle [having tea].
2. Nare leikhe?

Is my father there [sleeping in his bed]?
3. Dodo nalana gwari lei.

My wife's snake is in the tree [resting on a branch].
4. Areya la leikhe?

Is the father's wife there [ill in hospital]?
5. Elo khuro namomo leno.

My uncles are in the bird jungle [hunting pigs].
6. Khemakhü lekhe?

Is his dog there [barking up a tree]?
7. A dodofa gwari leino.

The tree snakes are in the house [crawling around].
8. Afa makhü lenokho?

Are the house dogs there [standing at the gate]?
9. O khenareye e bakha?

Is his father's bird in the water [bathing itself]?
10. A khalakha amiya lei.

The yam worm is in the house [on the floor].
11. Namiyaye edolo nane banokho?

Are my birds on my worm's fruit [sitting on it and pecking at it]?
12. Dodo nanaya a le.

My friend's house is in the tree.
13. Namiyo leileima.

My child is usually there [in its crib].
14. Khela yarimo naramu lei.

My cucumber is in his bird's garden [on the table].
15. Dodofa a la babamakha?

Is the wife usually in the tree house [weaving baskets on the floor]?
(a) Translate into English:
16. Okha yarimo miyo bano.
17. Nano khelana amiya leileimakha?
(b) Translate into English and give an example context, similar to those above:
18. Nadodo miyo lelema.
19. Nala babamakha?
(c) Translate into English in all possible ways:

## 20. Khekhuro khena leno.

(d) Translate into Kombai:
21. His worms are on his fruit.
22. Is the father's tree there [standing]?
23. My houses are in the friend's jungle.
24. Is my dog usually in the jungle [running around]?

【. Kombai is a Greater Awyu language of the Trans-New Guinea family. It is spoken by approx. 6000 speakers in South Papua Province, Indonesia.

A yam is a root vegetable.
$\mathbf{k h}$, $\mathbf{g w}$ and $\mathbf{y}$ are consonants. $\ddot{\mathbf{u}}$ is pronounced like $\mathbf{i}$ but with rounded lips.
